

Citeline Engage. Gather. Trial Awareness. Recruit.

Virtually gather feedback from experts, ignite awareness of your clinical studies, and recruit the right investigators.

Citeline Engage combines the industry's most comprehensive clinical trial intelligence suite with access to the leading online community of verified, engaged healthcare professionals (HCPs). Citeline Engage connects you to more than 1.7 million healthcare professionals in the US, including nearly 881,000 verified physicians, to help you achieve your clinical trial goals. Citeline Engage helps you:

Citeline Engage: Gather

Virtually gather healthcare professionals to collaborate on your critical business topics.

Citeline Engage: Trial Awareness

Ignite awareness of your clinical trial with featured sponsorships and email campaigns to boost physician awareness and patient enrollment.

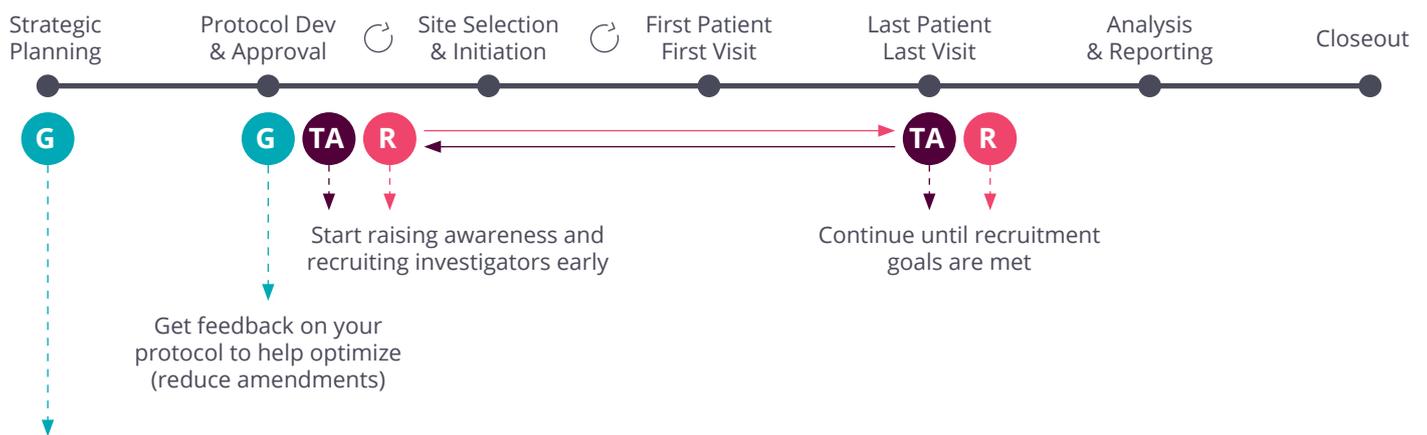

Citeline Engage: Recruit

Recruit experienced investigators or clinical research-naïve physicians to participate in clinical research. Establish peer-to-peer connections between investigators and physicians after site activation to support patient referrals.

Citeline Engage. Gather. Trial Awareness. Recruit.

Citeline Engage is a powerful new solution that combines leading investigator engagement capability with real-world data to help you gather expert feedback on critical business topics, ignite awareness of your upcoming or ongoing trials, and recruit the right investigators for your clinical trials.

See how Citeline Engage can help you at every stage of your clinical trial:

Get virtual feedback on topics including:

- The competitive landscape and market assessment
- Physician behaviour and sentiment
- Treatment options and prescribing patterns
- Investment opportunities and due diligence
- And more
